# School Attendance Research

- Being in school is important to your child's achievement, wellbeing, and wider development. [Evidence](#) shows that the students with the highest attendance throughout their time in school gain the best GCSE and A Level results
- Every moment in school counts, and days missed add up quickly. For example, a child in Year 10 who is absent for three days over a half term could miss 15 lessons in total.
- The higher a pupil's attendance, the more they are likely to learn, and the better they are likely to perform in exams and formal assessments.

# What are the risks of missing a day of school?

- Data from 2019 shows that 84% of Key Stage 2 pupils who had 100% attendance achieved the expected standard, compared to 40% of pupils who were persistently absent across the key stage.
