April 2021

AW/lw

Dear Parent/Carers

It was hoped that our year 11 students would be able to complete a two-week work experience programme from June 21st 2021.

Unfortunately, due to the unpredictability of the current climate and the hesitancy of the majority of the companies that support our programme, it has been decided that we must cancel work experience for this year.

However, if you have a family member or you have a close business contact that you are confident can support your young person for a work experience over the above fortnight, please let me know and I will make the necessary arrangements.

It is envisaged that those students that do not have a work experience opportunity this year will be in school and taking part in a host of activities to support careers and insight into the world of work.

Please contact me if you have any queries.

Yours sincerely

A Woolsey
