

HOME LEARNING

Subject: Science

Time: 50 minutes approx.

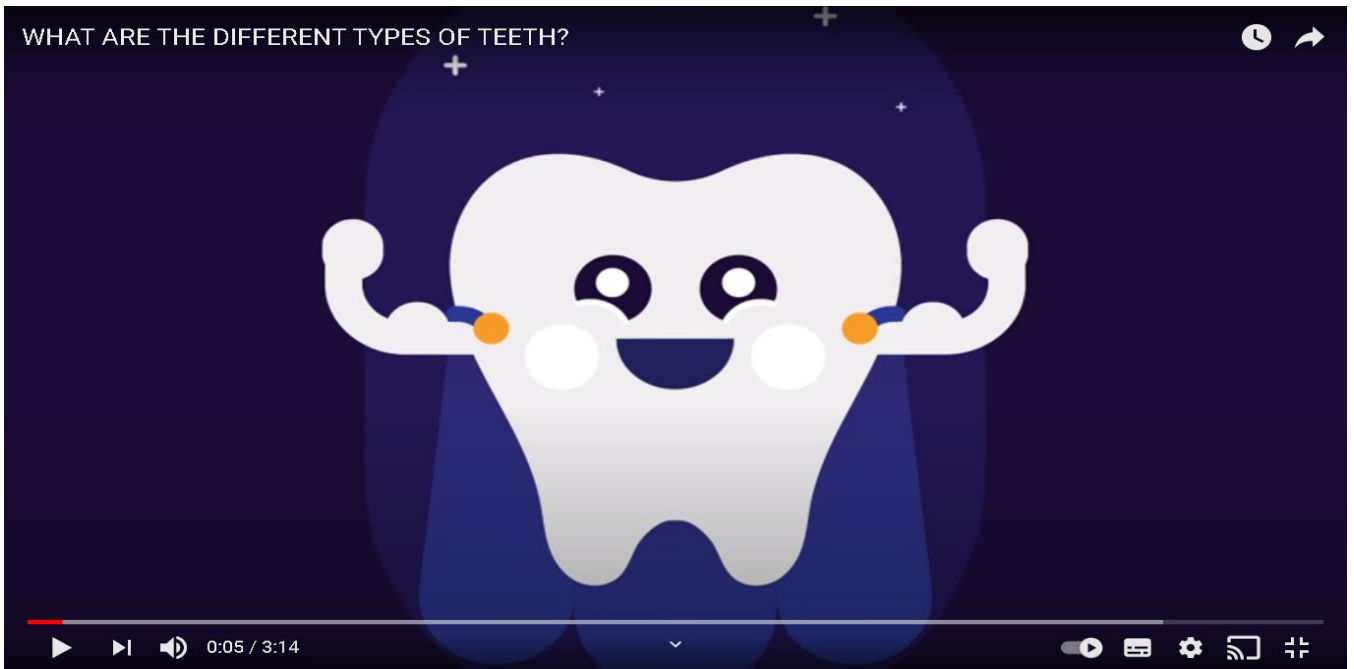

Learning Objective: I can identify teeth and their functions

Task 1: (Miss Mendez)

I can name the different types of teeth and their jobs

Watch the video 'What are the different types of teeth?' on the following link

<https://www.youtube.com/watch?v=ZE-TfHzIDw>.

Now try to complete the following activity.

Complete the sentences using the words from the thought bubble.

Teeth are
and very

They are used to
..... up
food and they help us to
.....

break hard
eat pink
white hold gums

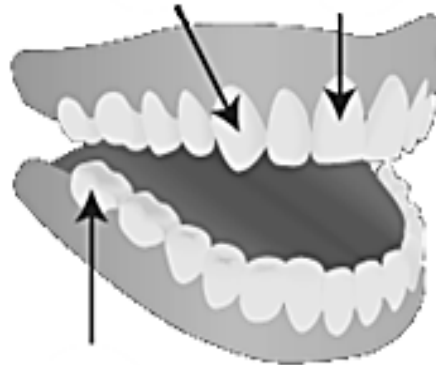

These are the
They are soft and
..... They
help to
the teeth in place.

Challenge:

How many sets of teeth do humans grow in their lifetimes? _____

Humans have three types of teeth in their mouth.

Label the molar, incisor and canine teeth.

Draw lines to match each type of tooth to its main job in humans:

canine	bites and cuts food
molar	chews and grinds food
incisor	rips and tears food

Save your work:

If you are using a computer, open a blank document to do your work (you can use Word or Publisher). Don't forget to SAVE it with your name, the lesson you are doing and the date.

For example: T.Smith Maths 8 April

If you would like us to see or mark your work please email it or send a photo of your completed work to:
