Subject: ICT

Teacher: Miss Jenkins

Learning Objective:

DIGITAL LITERACY

The Internet and the World Wide Web

LISTEN to Miss Jenkins explain the task

Digital Literacy is about developing your understanding, skills and use of technology in our Digital World. In the next few lessons, we are going to look at what you need to know when using and creating websites as well as when using the Internet.

What is the Internet?

- These are the linked (networked) computers all over the world which send 'digital information' to other computers
- Allows us to connect to people and countries all over the world

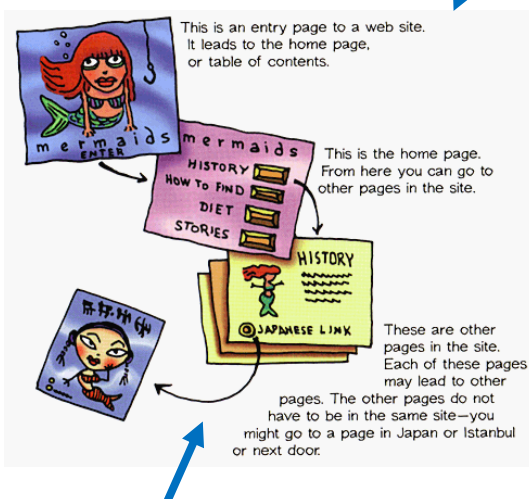

This webpage and video link explain **how the Internet Works** in more technical detail.

<https://www.bbc.co.uk/bitesize/topic/zs7s4wx/articles/z3tbgk7>

The Internet is computers all over the world that hold information. These computers are called **SERVERS**. It is **NOT** the **World Wide Web** (WWW).

The **World Wide Web** are the **webpages** that exist on **WEB SERVERS** that give us access to these computers and the information that they have on them.

This webpage is helpful, with a great video which explains how the Internet and the World Wide Web work together. It describes nicely how Sir Tim Berners Lee invented and developed the World Wide Web.

<https://www.bbc.co.uk/bitesize/topics/zs7s4wx/articles/z2nbgk7>

Web pages are linked together by **HYPERLINKS** (shortcuts) - creating a website.

From the information you've learnt, see if you can answer the quiz questions correctly.
You may have to do some more research to answer the challenge question – **number 10!**

KS3

HINT – Look at the REVISE section on the same page

Internet and communication

As a society we need to communicate and share. The internet allows us to communicate and share information in a matter of seconds.

Save your work:

If you are using a computer, open a blank document to do your work (you can use PowerPoint, Word or Publisher). Don't forget to SAVE it with your name, the lesson you are doing and the date.

For example: T.Smith ICT 23 Nov

If you would like us to see or mark your work, please email it or send a photo of your completed work to the member of staff.
